

**Coordinated health System of Jefferson County
Communities in Charge**

Gift Summary

The Coordinated Health System of Jefferson County, Alabama currently conducts an Emergency Room Discharge Transferal program in the Western Network Service Area (WNSA) with Baptist Princeton Medical Center. The program has been branded HealthPlus. Patients are enrolled in the Emergency Room and are given appointment to one of three health centers of their choice.

We have developed Consent Authorization and Notice of Privacy Forms that patients read and must sign prior to referral. These forms establish a relationship between the patient, CHS and our participating providers. Our legal counsel has approved these forms as meeting current HIPAA compliance standards.

An additional part of our gift is our HealthPlus Application and HealthPlus Checklist which our patients fill out and gives them instructions on arrival time and eligibility documentation to bring with them for their initial visit to the Health Center.
