

Oakland, California

The Alameda County Access to Care Collaborative and the Communities in Charge Project – Alameda County are partnering with the Alameda County – wide Continuum of Care Council to conduct a survey and assessment of the county’s homeless. The survey will be administered in February 2003 and will contain a variety of health care and social services questions. The survey includes questions from the County of Alameda Uninsured Survey (CAUS), enabling us to obtain information on the uninsured that a telephone survey like CAUS was not able to capture. The survey will be conducted in English, Spanish, Vietnamese, and Cantonese.

Our gift is the English version of the survey instrument.
